

DSTC Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2022-23 academic year) funding to help improve the attainment of our disadvantaged pupils. It is part of DSTC's 3 year strategy (2021-2023).

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

DSTC aims to '**Educate and Empower**' all students irrespective of their background or the challenges they face, to make good progress and show high attainment across the curriculum. No student's learning will be capped due to challenges to learning they may have, such as reading comprehension and vocabulary deficit.

Our strategy is integral to wider school plans for education recovery, notably in its continued targeted support post Covid-19 for pupils whose education has been worst affected, including non-disadvantaged pupils.

Research has found that disadvantaged students have been worst affected by partial Covid-19 (NSPCC, FFT DataLab, Children's Commissioner & Youth Endowment Fund research) and that the attainment gap has grown between disadvantaged and non-disadvantaged children.

Our intention is to '**Prioritise and Personalise**' both our teaching & learning and support for our Pupil Premium (disadvantaged) students, allowing them the greatest opportunity to succeed. Therefore we are focussing on the effective implementation of a small number of priorities in areas that are likely to make the biggest difference to our students:

It is our intention that children in receipt of Pupil Premium:

- Achieve to the best of their ability, addressing any barriers to learning that may present themselves through Quality First Teaching (QFT), intervention and support. High quality teaching, utilising '*Thinking Hard Strategies*' and '*Reading Proficiency*' is the centre point of our vision. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.
- Have high levels of attendance and receive support for this where it is necessary.
- Have as many opportunities as possible to experience extra-curricular activities and educational trips, regardless of barriers to this.
- Have access to wider pastoral support services where needed. eg counselling & wellbeing services.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Reading Proficiency To improve the reading proficiency of pupils identified in early testing as not currently meeting age-related expectations <i>[This links to our College Development Plan]</i>
2	Quality First Teaching (QFT) To continue to address lost learning from the Covid-19 pandemic through enhanced Quality First Teaching (QFT), behaviour support and intervention. <i>[This links to our College Development Plan]</i>
3	Absenteeism To address any attendance issues – particularly those at risk of being at the persistent absence level. <i>[This links to our College Development Plan]</i>
4	Experience and opportunity gap (Cultural Capital) To increase student cultural capital: Enabling engagement with extra-curricular activities and educational trips, addressing financial barriers where needed. <i>[This links to our College Development Plan]</i>
5	Wellbeing & Mental Health To support improvements in increasing resilience and improving mental health and wellbeing. <i>[This links to our College Development Plan]</i>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
1 Pupils in receipt of Pupil Premium funding increase their Reading proficiency.	Data led demonstrable impact from Accelerated Reader / Nessie / Reading Age tests.
2a Pupils in receipt of Pupil Premium funding achieve in line with expectations.	Reduced gap in Progress 8 between children in receipt of the Pupil Premium and those who are not from the previous academic year.
2b To improve PP Engagement in Learning .	Further develop a programme of early intervention behaviour / engagement support to decrease inappropriate behaviours and develop culture in the PP cohort. Reduction in the percentage of children in receipt of the Pupil Premium who are excluded / suspended as a proportion of all incidents to be in line with non PP students.

3 Increased attendance of children in receipt of the Pupil Premium – particularly in Years 10 and 11.	Reduced gap in attendance rates between children in receipt of the Pupil Premium and those who are not. Be above national averages in both attendance categories.
4 Increase Cultural Capital for PP students	Increase in the uptake of extra-curricular activities attended and targeted educational trips for children in receipt of the Pupil Premium. Every PP student attends at least 1 trip or visit and attends 1 club.
5 PP students feel supported regarding improving their own mental health & wellbeing	<p>Student Counsellor and Wellbeing survey results show improvements from baseline data. Case studies.</p> <p>New services have been identified for students to further support wellbeing.</p> <p>Individual Character Education Lessons and Bounce Forward (Healthy Minds) Tutor sessions support students' understanding of building resilience and positive mental health.</p>
