1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which students with disabilities can participate in the curriculum services provided
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, and services provided
- Improve the availability of accessible information to students with disabilities

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

Dartford Science and Technology College (DSTC) is a diverse and inclusive community that focuses on the wellbeing and progress of every student, where members of our community are of equal worth. We value diversity and seek to give everyone in the school an equal chance to learn. Our guiding principle is to identify and break down possible barriers to learning so that all students 'achieve their very best'. DSTC will be a centre of excellence in learning, where all students, including those with disabilities, are supported and challenged to fulfil high ambitions. The school's SEND policy plays a substantial role in guiding the school's developing provision for students with special educational needs and disabilities.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including students, parents/carers, staff and governors of the school.

2. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day-to-day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a student with disabilities faces in comparison with a student without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.
